

# Mona Lisa

Black Apple x London Pound Cake 75 x Kushmints 11

Mona Lisa by T.H.Seeds™ deserves to be in the Louvre Museum. The Mona Lisa painting hypnotises you with her mysterious smile. Mona Lisa by T.H.Seeds™ hypnotises you with her intense palette of colors. She seduces you with the taste of green candy apple dipped into blueberry syrup cotton candy with a touch of mint and leaves you super mellow, relaxed and creative. We love the Black Apple in all aspects, we just wanted to add a little bit stronger smell and longer lasting after taste. By crossing with our selected London pound cake 75 x Kushmints 11 male we created that magic mix. Resulting in Mona Lisa by T.H.Seeds™, a Cannabis MASTERPIECE! The structure of Mona Lisa is actually perfect. Not too tall, perfect shape for indoor with a good width, filling the space reserved for her to grow and she can be a master plant outdoors. All the flowers from top to bottom are very equal, nicely sized and dense all the way. She has a good flower to leaf ratio with great internode spacing, really easy to work with in general. Mona Lisa does not have a big stretch when entering the flowering stage, around twice to 2.5 the size after switching from 12-12. Top her once and get the desired shape for your space pretty easy. She can be pinched and banded down more for outdoors, as indoor she basically grows equally high as she does wide. Mona Lisa by T.H.Seeds™ checks all the boxes, is easy to grow and gets really good results without much effort. Mona Lisa's produces very deep colors, ranging all the way to fully black from the Black Apple mother combined with a lot of resin production from the male. Really dense, diamond flowers fully covered in resin, making it a hash makers dream with a full on terpene explosion. We advise to dry her for at least 12-14 days and cure for 14-20 days to really appreciate the intense taste and effects of this piece of ART. The Mona Lisa taste is super complex and unique with an after taste which stays long in the mouth. Green candy apple dipped into blueberry syrup cotton candy with a touch of mint. You want to keep smoking it all day and float around relaxed and creative and maybe even pick up a paint brush to work on your own masterpiece inspired by Mona Lisa by T.H.Seeds™!

## SPECIFICATIONS

2-seeds

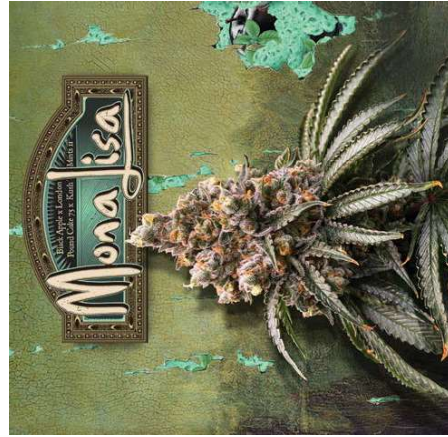

FEMINIZED

- **TYPE**  
55% Sativa - 45% Indica
- **HEIGHT**  
110cm - 140cm
