

# Pure Runtzy

## Runtz Mintz x Pure Afghani

Get ready for one of the best breeding creations ever made Pure Runtzy from T.H.Seeds™: Runtz Mintz x Pure Afghani. A perfect blend of fruit, gas, Skittles, peach and gelato. It's all in there. With unbelievable effects, relaxing and enjoyable, Pure Runtzy from T.H.Seeds™ is the ideal mix of the new school Runtz Mintz with the structure and resistance of the old school afghan tree. The Runtz Mintz that we selected has all the characteristics that we desire from a plant: great structure, loads of resin, diverse terpenes and a great after taste that stays long in the mouth and an intense, relaxing effect. We are super happy with the results as well as all the growers who tested Pure Runtzy for us all over the world in soil and hydro. They were all super excited and eager to grow more. They love her structure, the fact she's easy to grow, from the resin production to the resistance. The Pure Runtzy is medium to tall, not too leafy and has good internode spacing to let the flowers develop. She stretches by a factor of 2-3 maximum and can grow as wide as a Christmas tree with strong branches. She stretches more in coco hydro. Best to top her once or twice and then let her grow like a perfect plant. The flowers are dense and colorful with buds the perfect size and full of trichomes. She's easy to trim, another, hash makers dream!

### SPECIFICATIONS

2-seeds

6-seeds

#### FEMINIZED

- **TYPE**  
55% Sativa - 45% Indica
- **HEIGHT**
